Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach nor does any combination thereof fairly suggest a surgical table comprising a carriage coupled for relative movement with a base frame, said carriage including a plurality of spaced-apart rolling members and a pair of yokes each pivotally coupled to said base frame, each of said yokes carrying at least one of said rolling members, and a lifting mechanism capable of moving said yokes relative to said base frame between a first position in which said carriage is movable on said rolling members and a second position in which said carriage is not movable on said rolling members. The combination of elements as set forth in the claims is not shown by the prior art, and in particular the features as set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
